PROFESSIONAL SUMMARY

Detail-oriented **.NET Developer** with **1 year of hands-on experience (including apprenticeship and professional role)** in developing scalable web applications using **ASP.NET MVC, C#, ADO.NET, SQL Server, and REST APIs**. Experienced in **CRUD operations, MVC architecture, API integration, authentication basics, session management, and performance optimization** using stored procedures. Strong problem-solving skills with experience in government and academic projects.

TECHNICAL SKILLS

Frontend Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, AngularJS
Backend Technologies: ASP.NET MVC, ASP.NET Core (Basics), C#, ADO.NET
Database: SQL Server, Stored Procedures
APIs: RESTful APIs, API Integration, Postman
Core Concepts: OOP, MVC Pattern, SDLC, Debugging
Tools & IDEs: Visual Studio 2022, Git, GitHub

WORK EXPERIENCE

- .Net Developer | SigmaIT Software Designers PVT LTD**02/2023 – 08/2023
Lucknow, India
- Developed and maintained ASP.NET MVC applications using C#, ADO.NET, and SQL Server.
 - Designed RESTful APIs to improve data exchange and system performance.
 - Optimized backend logic and improved performance by **20%** through stored procedures.
 - Collaborated with a team of 5 developers and contributed to UI integration using HTML, CSS, JavaScript, and jQuery.
- Apprenticeship Trainee | Techpile Technology Pvt. Ltd**08/2022 – 01/2023
Lucknow, India
- Completed practical training focused on .NET MVC and SQL Server.
 - Built CRUD operations and implemented MVC components in live practice modules.

PROJECTS

- EduVerse | ASP.NET MVC, SQL Server, Razorpay API**2025
- Built a scalable e-learning platform with course creation, enrollment, and content delivery.
 - Implemented paid/free course system with **Razorpay integration** and secure transaction flow.
 - Developed instructor tools for uploading videos/PDFs and managing course materials.
 - Added **AI-powered Quiz Generation Module** with editable questions and database storage.
 - Designed a responsive student dashboard using HTML, CSS, JavaScript & jQuery.
- JJM Grievance | ASP.NET MVC, SQL Server** 2023
- Developed an **online complaint registration system** for the **UP Government** to handle water-related grievances.
 - Implemented **multimedia upload support** (photos/videos) and **real-time complaint tracking** using complaint ID or mobile number.
 - Categorized complaints by **location and type**, improving resolution efficiency and transparency.
- Gate Pass Management System | Python, Django, SQLite**2022
- Created a web application to automate campus gate pass approvals for students/staff.
 - Implemented role-based login and automated approval workflow.

CERTIFICATIONS

Python Developer – 45 Days Summer Training, Techpile Technology Pvt. Ltd. (2022)

EDUCATION

- Master of Computer Applications**2025
- Shri Ramswaroop College Of Engineering And ManagementLucknow, India
- Bachelor of Computer Applications**2022
- Sunbeam College For Women BhagwanpurVaranasi, India
